

DEPARTMENT OF THE ARMY
UNITED STATES ARMY MEDICAL DEPARTMENT ACTIVITY
1061 HARMON AVENUE
FORT STEWART, GEORGIA 31314-5641

Dear Provider,

Your patient requires Form DD2792, Exceptional Family Member Program Enrollment, to be completed. Exceptional Family Member Program (EFMP) is a mandatory enrollment for any military service family member meeting criteria; this includes any diagnosis requiring specialty care. This program helps prevent the family from assignment at a duty location that cannot provide medically necessary care for the family member.

Please assist the family member with their medical care by completing the form completely. Though it may seem redundant, every box must be completed if required. The following common errors prevent the family from enrolling or updating their enrollment if not completely filled out by the provider and must be addressed:

- 1.) Page 4/5: Only one diagnosis listed per diagnosis box- even if you feel more than one diagnosis is 'Primary', only one diagnosis is entered in each block. You may print or photocopy additional page 4/5 if needed.
- 2.) Page 4/5: 'Hospital Support for Last 12 Months' (example: Box 4a-d, 9a-d, 14a-d, 19a-d) must be listed for each diagnosis.
- 3.) Page 6: If a specialist marked, it must have a corresponding diagnosis (example: patient only with autism, if Gastroenterology is listed, needs a GI diagnosis on page 4/5). Frequency may not be 'PRN'.
- 4.) If asthma, mental health, or severe developmental delay is a diagnosis, the appropriate addendum must be completed IN ADDITION TO Page 4-7.
- 5.) If page 8 completed: block 3c-j are 'yes' the date/number days requested must be completed
- 6.) If page 9 completed: dates for 4c and 5a must be listed
- 7.) If page 11 completed: any diagnosis listed block 3 must be listed page 4/5; any specialist block 11 must be listed page 6
- 8.) If this is an updated enrollment: all previously enrolled conditions must be listed; if the condition has resolved, enter "Resolved" in the plan box.

Please do not write new orders or new referral requests as this is NOT sent to Tricare and does NOT serve as an update to the patient's medical record.

Thank you very much for your thorough attention to this document.

Dr Harriette K Flather, DO
EFMP Medical Director
Winn Army Community Hospital
Fort Stewart, Georgia
